Are you looking for a new challenge in a fast-growing, dynamic high-tech company?
It's time to make a move!

VuWall is a global leader in video wall control systems, providing a complete ecosystem of products and solutions developed to easily manage visual information in work environments and strategic decision centers. Founded in 2009, VuWall is a privately held company with its corporate headquarters located in Montreal (Pointe-Claire), Canada, its European headquarters in Reutlingen, Germany, and its U.S. office in Roswell (Atlanta), GA. With customers in over 45 countries, we have deployed more than 5,000 projects in many Fortune 500 organizations, government agencies, and public utilities, transportation, and security companies. Among our clients are the U.S. Department of Transportation, NASA, the Canadian Space Agency, the European Commission, Sydney Rail, Porsche, Daimler, L'Oréal, SNCF, FIFA, and various government institutions.

JOB DESCRIPTION

We are seeking a dedicated Technical Assembly Specialist to join our team. This role combines warehouse and assembly management with technical support responsibilities, ensuring smooth operations and efficient handling of both physical and digital assets. The ideal candidate will manage software portals, assemble hardware, install software, set up devices and test systems. This position does not involve direct customer interaction. The Assembly Specialist will report to the Operations Manager and is required to be physically present in the office in Roswell, GA.

MAIN RESPONSIBILITIES

- Manage warehouse and assembly areas.
- Organize and maintain inventory in the warehouse.
- Ensure accurate tracking and documentation of incoming and outgoing shipments.
- Procure, assemble, and test hardware.
- Prepare hardware by installing necessary software and configuring devices.
- Maintain and update results related to various tests and inspection procedures conducted regarding product specifications.
- Ensure that all parts, labor, and other processes are progressing in a timely manner.
- Manage orders including receiving and packaging for shipment.
- Troubleshoot and resolve technical issues related to hardware and software installations.
- Assist in day-to-day office tasks as needed.
- Work closely with the German production team to ensure seamless operations.
- Provide regular updates and reports on inventory and order status, technical support activities, and other job-related data.
- Assist in developing and implementing process improvements for assembly, warehouse and business operations.

QUALIFICATION REQUIREMENTS

- 2+ years of experience in technical assembly, production, or related field.
- Strong organizational and multitasking skills.
- Proficiency in managing software portals and software systems is an asset.
- Ability to install and configure software on various hardware devices.
- Excellent problem-solving skills and attention to detail.
- Ability to work independently and as part of a team.
- Experience with ERP systems and database management.
- Basic understanding of network configurations and IT infrastructure is an asset.
- Good hand-eye coordination for assembling small parts.
- Ability to use various hand tools.
- Ability to follow detailed instructions and diagrams.

THE VUWALL EXPERIENCE

- Competitive salary and comprehensive benefits package.
- Opportunity to work with cutting-edge technology in a growing industry.
- Dynamic and collaborative work environment with a focus on professional growth.
- Embracing diversity within a company that offers an inclusive multinational culture.
- Exceptional company culture.
